### Module Description

During their second year of studies or as soon as students have completed the compulsory Modules of the first year of studies, students may opt to write a Master's Thesis. To obtain a thesis master's degree, students have to successfully complete the 4 Modules of the first year to write a master's thesis of about 12.000-15.000 words (30 ECTS) on one of the academic fields of study of the Master's Programme. The master's thesis is expected to contribute to research in the subjects of the Master's Programme. The student's proposal must be accepted by a member of the Programme's teaching staff, who agrees to undertake the supervision of the dissertation. Alternatively, a selection of proposed topics is suggested by the teaching staff of the Programme. Master's Theses are completed and evaluated by a three-member committee of the Programme's teaching staff. The Programme organises public presentations of Master's Theses at the end of each academic semester.
